

The Leader In Recreational Aviation

BUILD AN AIRPLANE!

If you can fly an airplane and have basic mechanical abilities, chances are good that you can build your own aircraft also. Come meet people who have an interest in building and flying airplanes. Our members range from high-time pilots with multiple aircraft completions to newcomers who have an interest in flying. People with all levels of interest and ability are welcome to come to our monthly meetings. We welcome people from other areas as well.

EAA Chapter 42 meets the last Tuesday evening of each month in a variety of locations from Anchorage to Birchwood. In addition there are monthly breakfasts, organizational meetings and a website. Members provide each other with motivation, skills and training. We actively support the Young Eagles program and are involved in governmental affairs. For more information visit <http://www.eaa42.org/> (or search Alaska EAA) or call EAA Chapter 42 President Robert Edison at 227-7100.
